

INCOLAB SERVICES RUSSIA S.C.
COMMODITY SAMPLERS AND ANALYTICAL CHEMISTS

WORLDWIDE MORE QUALITY IN COAL AND COKE QUALITY AND QUANTITY

When it comes to coal and coke Incolab has a lot to offer. Incolab is one of the very few independent inspection companies dedicated to solid fuel. Whether its concern quality or quantity Incolab is your partner. Analysis are carried out 7 days per week by highly experienced chemists.

Incolab Services Russia S.C. is active in all ports of Former Soviet Union from the Arctic, Baltic, Black Sea and Far East ports whether is concern sampling or Draft Survey.

In most of the ports Incolab has own sample preparation facilities. As soon as samples are semi-prepared the samples are send overnight to laboratories for analysis.

The laboratory is equipped with the most up - to - date equipment and accredited by GOST R. Analysis can be carried out by A.S.T.M, I.S.O. or any other standard required. Incolab Services Russia S.C. is member of A.S.T.M.

Incolab Services Russia S.C. is part of the Incolab Services group which has own laboratories world-wide. *Incolab Services is represented in the United States by its partner Sampling Associates International (SAI), a recognised leader in the field of mechanical sampling.*
